

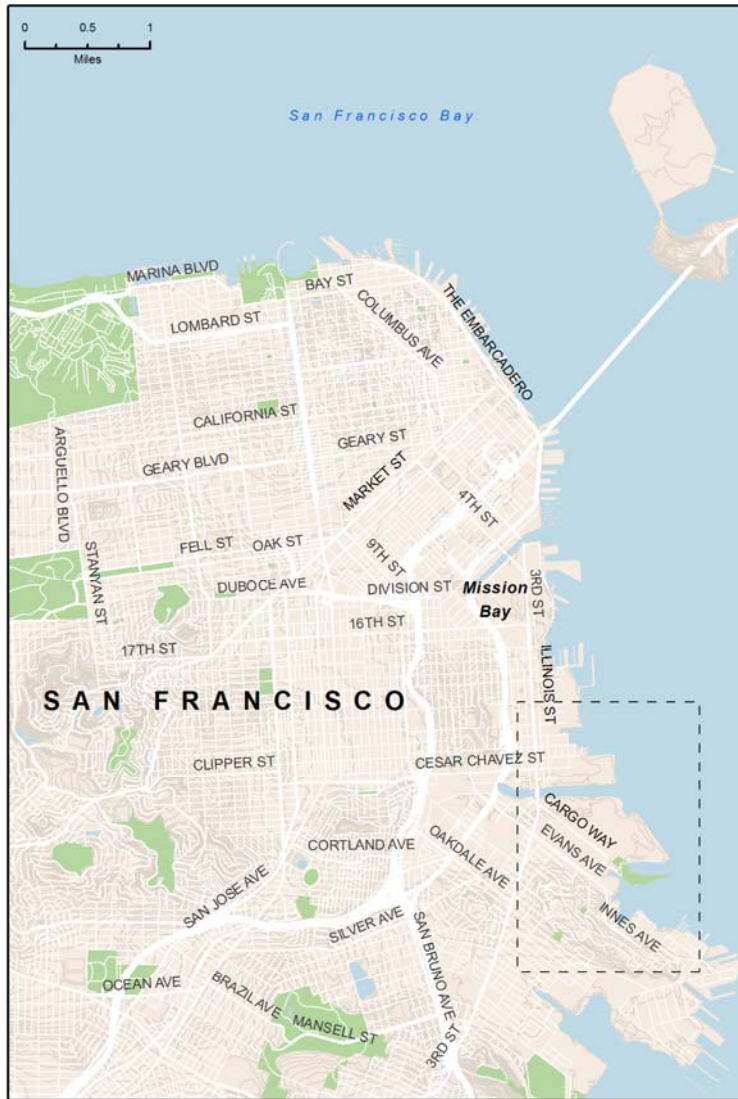

Exhibit 1: Project Location, Photographs, and Concept Design

SITE LOCATION

SITE CONTEXT

Exhibit 1: Project Location, Photographs, and Concept Design

The southern side of Cargo Way leads directly to the entrance of Heron's Head Park.

Exhibit 1: Project Location, Photographs, and Concept Design

This is the south side of Cargo Way facing in the southeasterly direction toward Heron's Head Park. The new Class I bicycle path will be installed in the street, next to the curb. An eight-inch-high median with a protective fence will be installed between those using the pathway and the passing vehicles. Parking will no longer be allowed at this location. See diagram on next page to visualize the new configuration.
